Task 3
For each of the following items write a reference entry following either the IEEE or the ACS or the ASME systems depending on your School.

1. "Perry's chemical engineers' handbook" is a book by R. H. Perry, & D. W. Green. The book was published in 2008 by McGraw-Hill. And the place of publication is New York.

2. "Super-resolution restoration and image reconstruction for passive millimeter wave imaging" is a chapter in an edited book. The authors of the chapter are: L. Li, J. Yang, and C. Li. The title of the book is "Image Restoration—Recent Advances and Applications ", and its author is A. Histace, The book was published in 2012 in Rijeka, Croatia by InTech. The page numbers of the chapter are 25-45.

3. A journal article by Adams, Z, which appears on pages 221 through 228 of Volume 3, issue number 4, of the *ASME J Appl. Mech.,* journal. The title is "Bending of an Infinite Beam on an Elastic Substrate" and it was published in 2014. The page numbers of the article are 221-228.
